25X1X

The Rumanian military hospital, Galati (R 55/Z 25), was still occupied on 14 February 1950 by the same Soviet AAA unit previously observed there. About 40 soldiers with two AA guns left for daily firing practice outside town. Wires, along which aircraft models were moved, were extended in the hospital yard. The aircraft models were used for aiming practice with AA guns and machine guns.

Comment :

The Soviet AAA unit in the former Rumanian military hospital of Galati was reported by the same source in October 1949. No information by other sources is available for comparison.
